MEMORANDUM FOR THE RECORD

SUBJECT: Training Consultant or Adviser

1. On 26 January [REDACTED], CIA ELINT Officer, called and asked for an informal expression from the Office of Training in connection with our part-time need for an electronics adviser or consultant who would serve on a part-time basis and assist the Office of Training with advice and guidance in connection with their responsibility for ELINT training (management and guidance). [REDACTED] stated that in the very near future a qualified electrical engineer would be returning from the field and it is his feeling and wish that his services be utilized in ELINT training and that his time be allocated as needed to assist DD/I, DD/P, Office of Communications, and Office of Training as their needs required the use of a qualified and field-experienced ELINT consultant. 25X1

2. Speaking informally on behalf of OTR, I stated that in my opinion OTR could very well find use for such services in the field of advice, guidance, and perhaps evaluation of training being given in fulfillment of OTR responsibilities to the Director to monitor all internal and external training conducted by and on behalf of CIA.
